PROFILE INFO

Passionate developer with experience in infrastructure management and application development using various technologies and frameworks. Specialized in the administration of platforms such as ServiceNow and with solid skills in programming languages such as C#, Java, and JavaScript. I seek to contribute my technical knowledge and analytical skills to a dynamic and growing team.

EXPERIENCE

2023 - PRESENT

Altiatek LLC. | Altia Business Park, SPS

Technical Consultant

- Develop and execute comprehensive strategies and solutions that align with the needs and objectives of the company.
- Remote customer service and maintenance and management of a high-performance team, promoting a collaborative and results-oriented work environment.
- Create, manage and implement solutions or integrations according to needs assessment, ensuring efficient allocation of resources and optimizing it.
- ServiceNow platform administration, reports, business rules, client-scripts (with AngularJS and Javascript).

2021 - 2023

Feyco Hardware Store | Bo. Medina, SPS

IT Manager

- Provide good service and attention to internal customers, troubleshooting problems with Hardware and Software.
- Maintenance and management of equipment and network infrastructure, such as Windows servers, Fortinet, contracts, licenses and integration projects.
- Create and manage the IT budget, ensuring efficient allocation of resources and optimizing ROI.
- Monitor IT technologies to identify customer needs and strategies to resolve pain points in the business and provide better infrastructure.

KEY PROJECTS

- Implementing Lynx HR management platform - 2022
- BeeTrack for Logistic Tracking, reduce rute gaps - 2023
